I. Background

The Alabama Medicaid Agency is seeking a solution for the technical implementation, system transition, and on-going operational support of the CMS Meaningful Use (MU) Electronic Health Record (EHR) Incentive Payment Program at the State Level. Alabama's most recent State Level Registry (SLR) was a Commercial-off-the-Shelf (COTS) solution. Medicaid expects the winning bidder to offer a platform that follows a very similar operational approach that Medicaid has employed since the program implementation in 2011. The Vendor must demonstrate a seamless transition into our current operations with minimal disruption to Medicaid's and SLR participants' workflow.

This solution must address all aspects of the program including, but not limited to, a thorough understanding of:

1. The steps and processes States must adhere to;
2. Interfaces with the National Level Repository;
3. Interfaces with Alabama's fiscal agent for provider and claims information;
4. Validation and audit capabilities and issuance and tracking of all payments;
5. Program reporting and analytics;
6. Issues in transitioning from one technology platform to another.
7. Project Support for Attestation Pre-verifications.

Alabama has outlined its continued vision for the incentive program in its State Medicaid HIT Plan (SMHP) which is available on the Medicaid website.

Alabama Medicaid is taking an aggressive approach to continue its MU State Level Registry Payment System and meet CMS MU Program Year attestation deadlines for 2015 and beyond. The system must have the capability to issue payments within 30 days of the contract effective date, tentatively set at August 1, 2016.

Proposed solutions must encompass all stages of the incentive payment program and the proposed technology must be supported by the necessary staff and resources to address provider questions throughout the process, attestation pre-verification, audit and appeals, validation inquiries, reporting, electronic clinical quality measure analysis and system upgrades as required.

The following outlines the proposed Scope of Work for this contract. Vendors are encouraged to offer creative solutions that will allow Medicaid the ability to have a provider friendly, open and transparent system. It should be noted that the focus is to transition and have a system that is capable of processing Adopt, Implement, and Upgrade (AIU) and MU Stages I and II, beginning with Program Years 2015 and 2016 initially. Vendor, however, will need to be planning and developing for Program Year 2017, and Stage 3 meaningful use program changes as well.

The Vendor to whom the contract is awarded must be responsible for the performance of all duties contained within this Request for Proposal (RFP) for the firm and fixed price

quoted in the Vendor's proposal to this RFP. All proposals must state a firm and fixed price for the services described, which shall include system upgrades and modifications required by Medicaid to comply with changes to regulations, state policies, and CMS directives. The proposal should also include the process for identifying fair and reasonable costs for requests from Medicaid for customizations to the system that increase Medicaid's operational efficiencies and are beyond the scope of the above changes.

All information contained in this RFP and any amendments reflect the best and most accurate information available to Medicaid at the time of RFP preparation. Inaccuracies in such data shall not constitute a basis for change of the payments to the Vendor or a basis for legal recovery of damages, actual, consequential or punitive.

II. Scope of Work

Vendor's proposal must present the technological design, development and implementation of the infrastructure and comprehensive staff support for the CMS EHR Incentives Program including registration, bi-directional connectivity to CMS's National Level Registry, connectivity to the MMIS claims management and provider management system for identification and payment, audit, reporting, data analysis, and oversight functionality. The Vendor must have a minimum of 3 years experience in the implementation, operation, maintenance, and attestations support of a Meaningful Use State Level Registry and EHR payment systems.

As a part of the response to this Proposal, the Vendor must satisfactorily demonstrate the capability to perform each of the following as listed in this Scope of Work:

A. Interface with the National Level Repository (NLR)

1. Because all eligible providers must initially register with the National Level Repository, the Vendor response must demonstrate an interface process to send and receive data is necessary. Vendor should note that there is at a minimum an initial interface for provider registration as well as a backend validation process. In additional, payment information must be supplied to the NLR once generated.
2. Vendor solution must demonstrate the capability support all current and future applicable requirements as published by CMS, including ICD-10 and electronic Clinical Quality Measures (eCQM)'s. A current ICD-10 is attached. Vendor should refer to CMS HITECH website for further requirements.

B. State Level System Requirements

After registering with the NLR, providers and MU program staff must have access to a state level system using a web portal that continues and completes

the registration, attestation process, process payment approvals, audits and appeals. Over the various stages of meaningful use, the web portal must expand and accommodate added sets of information and attestations.

As a part of the response to this Proposal, the Vendor's solution must satisfactorily demonstrate the capability to perform all of the following:

1. WEB PORTAL COMPONENTS

At a minimum, web portal must allow providers to complete the application process, view their information and track payment information. The web portal must access the Alabama SLR Payment system and any separate support systems necessary and must perform all the following:

- a. Email notification to the Provider of receipt of data from the NLR.
- b. Pre-populated information from the NLR.
- c. Receive and store current Alabama MMIS provider enrollment.
- d. Address all requisite steps of the provider application process, including provider applicant eligibility determination, attestation, and payee determination; application submittal confirmation/digital signature or secure confirmation; Medicaid payment determination (including NLR confirmation) and payment generation – including 1099.
- e. Create a repository of all registration, attestation, payment, and audit and appeals data.
- f. Allow for documents to be uploaded and attached to a provider file to provide additional information.
- g. Allow for EHR electronic submission of QRDA Category I & QRDA Category III files.
- h. Allow for secure email functionality within the system between Medicaid and providers.
- i. Allow for certain authorized users (e.g., state staff) to view provider's attestation and attached documents; enter notes and add attachments at various stages of the pre-payment review process. Functionality should be enabled to allow notes to be hidden from general views.
- j. Allow for print or download capability in an unalterable format.
- k. Allow for functionality that will track application progress and notify provider of remaining items to be completed (along with necessary information required), either through screen notification or email notification if application is dormant for a period of time.
- l. Allow for "help" functionality throughout the process that providers can link to for clarification or additional information.

- m. Display a provider identifier on each screen and printed pages.
- n. Allow for interaction and integration of the ONC MU certified popHealth® application.

2. SPECIFIC PAYMENT FUNCTIONS

- a. Maintain a repository of all Medicaid EHR Incentive Payment Program activity (eligibility, payment, denial, appeals, etc.);
- b. Vendor should have system functionality that calculates the correct payment methodology based on eligible professional (EP) and eligible hospital (EH) status and type and stage and year of participation of meaningful use.
- c. Payment system (Vendor should demonstrate their capability) that is automated and able to interface with the MMIS system for payment issuance and data absorption into general accounts receivable system. Because payments will be subject to general liens and other payment holds and will be captured for 1099 reporting, it is critical that payment information is accurate and available.
- d. Ensure that inappropriate payments are not calculated or made available for issuance.
- e. Ensure that payments are not automatically issued to providers that are under exclusion/sanctions, or for duplicate payments.
- f. Allow for payments to be designated to other entities as allowable under the regulations.

3. FRAUD AND ABUSE, AUDITS AND APPEALS

 - ii. Attestation Detail & Summary (including complete and incomplete)
 - iii. Payment Detail and Summary
 - iv. Audit Activity
 - v. Clinical Meaningful Use Measures (Vendor will be expected to comply with MACRA reporting requirements for States.

- b. The “on-line” help feature should provide connection to the call center should the provider not be able to navigate the application.
- c. “Calls” should be answered based on the following metrics:

Calls	90% answered within 30 seconds; all calls should be answered within 5 minutes
Emails	90% responded to within 6 hours, within working hours

First Call/Email Resolution	90% or higher

- d. Vendor will be responsible for creating an on-line and written manuals for use by providers and state staff utilizing the system.
- e. Vendor will be responsible for creating communication and marketing material (text, screenshots) to be used in Medicaid communication Plan. All marketing for the program will be conducted under State branding and with prior approval of Medicaid.

- f. Vendor will be responsible for the pre-verification of 2015/2016 EP attestations during the year 1 of the contract. Alabama will transition this responsibility to State merit staff beginning in Year 2.

C. FUTURE FUNCTIONALITY GUARANTEE

Medicaid and Vendor recognize that the MU Incentive Payment Program is an evolving process that will entail system modifications and additions throughout the duration of the program to accommodate published regulations. Medicaid is only interested in those Vendors whose pricing and program design are such that all future modifications are included in the firm and fixed pricing.

Medicaid is only interested in those Vendors who provide a guarantee that there are sufficient resources to ensure that their product will allow providers to capture the necessary information in the prescribed regulatory timeframes necessary to effect technical and program changes that will permit providers to receive MU Incentive Payments and accommodate all requirements addressed in this RFP. As a part of their response, the Vendor's solution must satisfactorily demonstrate their understanding of this requirement and the capability to satisfactorily meet this condition.

D. FISCAL AGENT INTERFACES

As a part of the response to this Proposal, the Vendor's solution must satisfactorily demonstrate that: Vendor must be prepared to work with Medicaid's current fiscal agent to obtain necessary claims and provider specific information. The current MMIS Contractor will be required to provide the necessary interfaces.

The cost proposal for Year 1 must include a separate line for Vendor's project staff to conduct the pre-verifications of 2015 and 2016 EP payment attestations. This project support will be used only for Year 1 of the contract. This support will not be used for years 2 through 5 of the contract.

VII. Submission Requirements

A. Authority

This RFP is issued under the authority of Section 41-16-72 of the Alabama Code and 45 CFR 74.40 through 74.48. No other evaluation criteria, other than as outlined in the RFP, will be used.

In accordance with 45 CFR 74.43, the State encourages free and open competition among Vendors. Whenever possible, the State will design specifications, proposal

requests, and conditions to accomplish this objective, consistent with the necessity to satisfy the State's need to procure technically sound, cost-effective services and supplies.

B. Single Point of Contact

From the date this RFP is issued until a Vendor is selected and the selection is announced by the Project Director, all communication must be directed to the Project Director in charge of this solicitation. **Vendors or their representatives must not communicate with any State staff or officials regarding this procurement with the exception of the Project Director.** Any unauthorized contact may disqualify the Vendor from further consideration. D. Questions Regarding the RFP

Vendors with questions requiring clarification or interpretation of any section within this RFP must submit questions and receive formal, written replies from Medicaid. Each question must be submitted to the Project Director via MUPPRFP@medicaid.alabama.gov. Questions and answers will be posted on the website.

F. Adherence to Specifications and Requirements

Vendor must submit a statement stating that the Vendor has an understanding of and will comply with the specifications and requirements described in this RFP.

G. Order of Precedence

In the event of inconsistencies or contradictions between language contained in the RFP and a Vendor's response, the language contained in the RFP will prevail. Should Medicaid issue addenda to the original RFP, then said addenda, being more recently

issued, would prevail against both the original RFP and the Vendor's proposal in the event of an inconsistency, ambiguity, or conflict.

H. Vendor's Signature

The proposal must be accompanied by the RFP Cover Sheet signed in ink by an individual authorized to legally bind the Vendor. The Vendor's signature on a proposal in response to this RFP guarantees that the offer has been established without collusion and without effort to preclude Medicaid from obtaining the best possible supply or service. Proof of authority of the person signing the RFP response must be furnished upon request.

I. Offer in Effect for 120 Days

J. State Not Responsible for Preparation Costs

The costs for developing and delivering responses to this RFP and any subsequent presentations of the proposal as requested by Medicaid are entirely the responsibility of the Vendor. Medicaid is not liable for any expense incurred by the Vendor in the preparation and presentation of their proposal or any other costs incurred by the Vendor prior to execution of a contract.

K. State's Rights Reserved

While Medicaid has every intention to award a contract as a result of this RFP, issuance of the RFP in no way constitutes a commitment by the State to award and execute a contract. Upon a determination such actions would be in its best interest, Medicaid, in its sole discretion, reserves the right to:

- Cancel or terminate this RFP;
- Reject any or all of the proposals submitted in response to this RFP;
- Change its decision with respect to the selection and to select another proposal;
- Waive any minor irregularity in an otherwise valid proposal which would not jeopardize the overall program and to award a contract on the basis of such a waiver (minor irregularities are those which will not have a significant adverse effect on overall project cost or performance);
- Negotiate with any Vendor whose proposal is within the competitive range with respect to technical plan and cost;
- Adopt to its use all, or any part, of a Vendor's proposal and to use any idea or all ideas presented in a proposal;
- Amend the RFP (amendments to the RFP will be made by written addendum issued by Medicaid and will be posted on the RFP website);
- Not award any contract.

L. Price

Vendors must respond to this RFP by utilizing the RFP Cover Sheet to indicate the firm and fixed price for the implementation and updating/operation phase to complete the scope of work.

M. Submission of Proposals

Proposals must be sealed and labeled on the outside of the package to clearly indicate that they are in response to 2016-MUPR-02. Proposals must be sent to the attention of the Project Director and received at the Agency as specified in the Schedule of Events. It is the responsibility of the Vendor to ensure receipt of the Proposal by the deadline specified in the Schedule of Events.

N. Copies Required

Vendors must submit one original Proposal with original signatures in ink plus two electronic (Word and PDF format) copies of the Proposal on jumpdrive clearly labeled with the Vendor name. One electronic copy MUST be a complete version of the Vendor's response and the second electronic copy MUST have any information asserted as confidential or proprietary removed. Vendor must identify the original hard copy clearly on the outside of the proposal.

O. Late Proposals

Regardless of cause, late proposals will not be accepted and will automatically be disqualified from further consideration. It shall be the Vendor's sole risk to assure delivery at the Agency by the designated deadline. Late proposals will not be opened and may be returned to the Vendor at the expense of the Vendor or destroyed if requested.

VIII. Evaluation and Selection Process

A. Initial Classification of Proposals as Responsive or Non-responsive

All proposals will initially be classified as either "responsive" or "non-responsive." Proposals may be found non-responsive at any time during the evaluation process or contract negotiation if any of the required information is not provided; or the proposal is not within the plans and specifications described and required in the RFP. If a proposal is found to be non-responsive, it will not be considered further.

Proposals failing to demonstrate that the Vendor meets the mandatory requirements listed in Appendix A will be deemed non-responsive and not considered further in the evaluation process (and thereby rejected).

B. Determination of Responsibility

The Project Director will perform a compliance review to determine Vendor's compliance with the requirements of the RFP and to ensure the standards of responsibility are met. In determining responsibility, the Project Director may consider factors such as, but not limited to, the vendor's specialized expertise, ability to perform the work, experience and past performance. Such a determination may be made at any time during the evaluation

process and through contract negotiation if information surfaces that would result in a determination of non-responsibility. If a Vendor is found non-responsible, a written determination will be made a part of the procurement file and mailed to the affected Vendor.

C. Opportunity for Additional Information

Medicaid reserves the right to contact any Vendor submitting a proposal for the purpose of clarifying issues in that Vendor's proposal. Vendors should clearly designate in their proposal a point-of-contact for questions or issues that arise in Medicaid's review of a Vendor's proposal.

D. Evaluation Committee

An Evaluation Committee appointed by the Project Coordinator will read the proposals, conduct corporate and personal reference checks, score the proposals, and make a written recommendation to the Commissioner of the Alabama Medicaid Agency. Medicaid may change the size or composition of the committee during the review in response to exigent circumstances.

E. Scoring

The Evaluation Committee will score the proposals using the scoring system shown in the table below. The highest score that can be awarded to any proposal is 100 points.

Evaluation Factor	Highest Possible Score
Corporate Background and References	20
Scope of Work	40
Pricing	40
Total	100

F. Determination of Successful Proposal

The Vendor whose proposal is determined to be in the best interest of Medicaid will be recommended as the successful Vendor. The Project Director will forward this Vendor's proposal through the supervisory chain to the Commissioner, with documentation to justify the Committee's recommendation.

When the final approval is received, Medicaid will notify the selected Vendor. If Medicaid rejects all proposals, it will notify all Vendors. Medicaid will post the award on the

Medicaid's website at www.medicaid.alabama.gov. The award will be posted under the applicable RFP number.

If Medicaid, in its sole discretion, deems at any time during the term of the contract that monies lawfully applicable to this agreement shall not be available for the remainder of the term, Medicaid shall promptly notify Contractor to that effect, whereupon the obligations of the parties hereto shall end as of the date of the receipt of such notice and the contract shall at such time be cancelled without penalty to Medicaid, State or Federal Government.

In the event that Medicaid elects to terminate the contract pursuant to this provision, it shall so notify the Contractor by certified or registered mail, return receipt requested. The termination shall be effective as of the date specified in the notice. In such event, Contractor will be entitled only to payment for all work satisfactorily completed and for reasonable, documented costs incurred in good faith for work in progress. The Contractor will not be entitled to payment for uncompleted work, or for anticipated profit, unabsorbed overhead, or any other costs.

N. Force Majeure

During the performance of the contract, the contractor shall participate in the E-Verify program and shall verify every employee that is required to be verified according to the applicable federal rules and regulations. Contractor further agrees that, should it employ or contract with any subcontractor(s) in connection with the performance of the services pursuant to this contract, that the Contractor will secure from such subcontractor(s) documentation that subcontractor is enrolled in the E-Verify program prior to performing any work on the project. **Instructions for Certification Regarding Debarment, Suspension,
Ineligibility and Voluntary Exclusion**

(Derived from Appendix B to 45 CFR Part 76--Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion--Lower Tier Covered Transactions)

1. By signing and submitting this contract, the prospective lower tier participant is providing the certification set out therein.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this contract was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the Alabama Medicaid Agency (the Agency) may pursue available remedies, including suspension and/or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the Agency if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.

4. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, and voluntarily excluded, have the meaning set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this contract is submitted for assistance in obtaining a copy of those regulations.

5. The prospective lower tier participant agrees by submitting this contract that, should the contract be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

6. The prospective lower tier participant further agrees by submitting this contract that it will include this certification clause without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from covered transactions, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the Agency may pursue available remedies, including suspension and/or debarment.
